

Summary

A highly motivated individual with a strong background in mathematics and computer science.

Experiences

2023 **Intern, IBM**

Analyzed large datasets using python (Pandas, NumPy) to extract insights and visually represent the data for comparative analysis.

Projects

Housing Price Predictor

Developed a regression model using Tensorflow on kaggle dataset, visualized results with Matplotlib for comparative analysis.

Edge and Contour Prediction

Developed a model using opencv and Matplotlib, to contour and edges in images.

Technical Experience

languages C, Python, Rust, Javascript, HTML, CSS,
technologies Tensorflow, Matplotlib, OpenCV, MySQL, Bash Scripting, Git, PostgreSQL, Bootstrap, Debian

Languages

fluent in English, Hindi
still learning German

Education

2026– **M.Sc, Mathematics, RPTU Kaiserslautern-Landau**
2022–2025 **B.Sc, Mathematics, University of Calcutta**

Activities

2025 **Tattvam, Scottish Church College, University of Calcutta**
Coordinated annual departmental fest, managing logistics for 400+ participants.
2023–2024 **Sobuj Mon, Scottish Church College, University of Calcutta**
Taught Mathematics and English to underprivileged children.
